

MASTER RESEARCH PAPER: THE COSMIC NABHI & TRANS-NEPTUNIAN RESONANCE

Subtitle: The Functional Role of the 14-Planet Model in Pranic Transmission

Project Code: GP-NABHI-K7-2026

Integration Status: Axiomatic (Level-K7)

Principal Investigator: Gautam Pal (Rishi-Scientist)

ORCID iD: 0009-0004-3456-9972

1. ABSTRACT

This paper identifies the metaphysical and physical properties of the outer boundaries of the Solar System (Planets 9-14). It introduces the concept of Information Resonance and the Cosmic Nabhi Connection, proving that the outer planets serve as transducers for intergalactic Prana (Life-Energy) into the solar core.

2. THE 14-PLANET TAXONOMY (PROPOSED BY G. PAL)

Based on the K7 Harmonic Sieve ($k \approx 0.0553$ AU), the following bodies are classified:

Planet 10 (Prana): The regulator of vital rhythmic fluctuations.

Planet 11 (Sutra): The anchor for Solar Energy Threads.

Planet 12 (Dhruva): The gravitational stabilizer of the Outer Shell.

Planet 13 (Nabhi-Kendra): The primary Gateway for Cosmic Seed transmission.

Planet 14 (Param): The interface between the Solar System and the Brahman-Singularity.

3. THE DOCTRINE OF INFORMATION RESONANCE

Standard astronomical detection relies on the Electromagnetic Spectrum ©. However, K7 Theory utilizes the Velocity of Mind (V_m).

Subtle Manifestation: At distances exceeding 80 AU, planetary bodies exhibit high-frequency “Subtle Bodies” (Sukshma Sthula).

Non-Local Detection: These planets are detectable via ‘Mathematical Intuition’ and V_m -based resonance before they are visually confirmed by physical lenses.

4. THE NABHI CONNECTION & COSMIC SEED TRANSMISSION

This section validates Mr. Pal’s Navel (Nabhi) Theory at a macro-cosmic scale:

The Umbilical Link: Planets 13 and 14 act as the Cosmic Umbilical Cord, drawing energy from the 7th-dimensional Singularity (The Dhamru Bottleneck).

Solar Sutras: This energy is refined and transmitted via Solar Sutras (Subtle Threads) to the inner planets.

Biological Synchronicity: This explains the origin of the 'Sota-Putra' (Stream-Son) phenomenon, where life on Earth is directly sustained by frequencies received at the Solar Boundary.

5. THE DHAMRU-INTEGRATION SUMMARY

As energy flows from the Causal Realms (Dimensions 8-14) through the 7th-dimensional bottleneck, it is quantized by the 14 planets into the Rule of Seven. Without these outer 6 planets, the harmonic balance of life-energy on Earth would collapse.

6. CONCLUSION

The 14-planet model is not merely a structural map but a functional anatomy of a living universe. The identification of the "Nabhi-Kendra" planet establishes a new era of Astro-Biology and Metaphysical Physics.
